Subject: Church Rock LAR Addendum letter dated 1/22/2015

Dr. McLaughlin:

UNC has recognized that the ACL petition referred to in the subject letter dealt only with Zone 1; and therefore, cannot be used as justification to change the license with respect to Zone 3. Per Zone 3, future remedy decisions are awaiting the completion of EPA's Site-wide Supplemental Feasibility Study (SWSFS), which in turn, is dependent upon clarifying the background concentrations that are subject to this license amendment request, UNC acknowledges that upon approval of the SWSFS, it will put forth either a modified corrective action plan, an alternate concentration limit proposal, or an alternative to the specific requirements of 10 CFR Part 40, Appendix A if standards are still exceeded.
