

23 January 2015

Director, Office of Federal and State Materials and
Environmental Management Programs,
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001.

ATTN: Document Control Desk/Exempt Distribution

**SUBJECT: Periodic Report of Material Transfer – Material License 31-23902-01E
Farmingdale, NY Location**

In accordance with the requirements of 10CFR Part 32.25(c) please find enclosed our report for products transferred from the Farmingdale warehouse during the period of January 1, 2014 through December 31, 2014 under Section 30.19 of 10CFR30.

Licensee is Meprolight, Incorporated – license number 31-23902-01E.

All material transferred was in the form of gaseous tritium (H3) sealed in glass vials (known in the trade as Gaseous Tritium Light Sources – GTLS) all mounted within weapon sights. The report items listed cover sight sets as well as individual front and rear sights.

This report is being submitted separately from the one for our Teaneck warehouse because it is unclear to us if the report should be combined. Should you have any questions or comments please do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brad Fisher', written over a white background.

Brad Fisher
President
