Docket Nos. 50-335 and 50-389
Environmental Protection Plan Report
Florida Department of Environmental Protection Permit No: FL0002208
Administrative Order AO-022-TL Heated Water Plan of Study & Biological
Plan of Study

Pursuant to Section 3.2.3 of the St. Lucie Environmental Protection Plan, Florida Power & Light Company (FPL) is hereby forwarding the attached copy of the Florida Department of Environmental Protection's concurrence to FPL's request to end the offshore monitoring activities required under an Administrative Order AO-022-TL, Heated Water Plan of Study (HWPOS) (Condition 17) & Biological Plan of Study (BPOS) (Condition 20), as issued by the FDEP on December 30, 2014.

Please contact Vince Munné (772) 263-2847 should you have any questions on this matter.

Sincerely,

Re: Florida Power & Light Company
St. Lucie Plant
Administrative Order AO-022-TL
Heated Water Plan of Study &
Biological Plan of Study

Dear Mr. Jensen:

On December 12, 2014, the Department of Environmental Protection (Department) received Florida Power & Light Company's request to end the monitoring activities offshore from the St. Lucie Plant that were required under an Administrative Order (AO-022-TL). These monitoring activities are part of the Heated Water Plan of Study (HWPOS) and the Biological Plan of Study (BPOS) required by Conditions 17 and 20, respectively, of the Administrative Order.

The Department concurs that the HWPOS monitoring requirements stipulated in Condition 17 of the Administrative Order have been satisfied. As discussed with Mr. John Jones, the Department also concurs that the BPOS monitoring requirements stipulated in Condition 20 will be satisfied upon successful completion of the scheduled monitoring event in January 2015.

If you have any questions concerning this approval, please contact either Bala Nori or me with any questions at (850) 245-8589.

Sincerely,

Marc Harris, P.E.
