Subject: Draft Safety Evaluation for GE Hitachi Nuclear Energy Americas, LLC Licensing Topical Report NEDC-33406P, Revision 2, “Additive Fuel Pellets for GNF Fuel Designs” (TAC No. ME3082)

In Reference 1, the NRC provided the draft Safety Evaluation (SE) of the subject topical report and requested that GE Hitachi Nuclear Energy Americas (GEH) identify any information that it considers proprietary and provide comments on factual errors or clarity concerns. The enclosures to this letter provide the GNF-A response to this request.

The subject Topical Report, NEDC-33406P, is a Global Nuclear Fuel – Americas (GNF-A) product and was submitted by a GNF-A corporate letter. Therefore, the SE should reflect that ownership.

Please note that Enclosure 1 contains proprietary information of the type that GNF-A maintains in confidence and withholds from public disclosure. The information has been handled and classified as proprietary to GNF-A as indicated in its affidavit. The affidavit contained in Enclosure 3 identifies that the information contained in Enclosure 1 has been handled and classified as proprietary to GNF-A. GNF-A hereby requests that the information in Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

Enclosure 1 is the proprietary version of the Comment Summary Table and Markup of Draft Safety Evaluation. Enclosure 2 is a non-proprietary version. Enclosure 3 contains the affidavit.

If you have any questions about the information provided here, please contact me at (910) 819-6684 or Jim Harrison at (910) 620-1826.

Sincerely,

Brian R. Moore
