Subject: **Docket Nos. 50-206, 50-361 and 50-362**
2014 Annual Turtle Incidental Take Report
San Onofre Nuclear Generating Station (SONGS), Units 1, 2 and 3

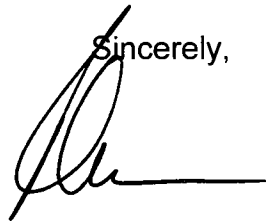

Reference: Letter from Brian Metz (Southern California Edison), to Sarah Wilkin
(National Marine Fisheries Service), dated January 26, 2015

Dear Sir or Madam:

In accordance with a request by Nuclear Regulatory Commission, Division of Site and Environmental Review, Southern California Edison is providing a copy of the referenced letter with attached 2014 Annual Turtle Incidental Take Reports. This annual report, submitted to the National Marine Fisheries Service, states that there were no incidental takes of sea turtles during 2014.

If you have any questions, please contact Ms. Andrea Sterdis at (949) 368-9985.

Sincerely,

FSMEZO

Annual Turtle Incidental Take Report

January 26, 2015

Sarah Wilkin
National Marine Fisheries Service
501 West Ocean Blvd. Suite 4200
Long Beach, CA 90802-4213

Subject: San Onofre Nuclear Generating Station 2014 Annual Turtle Incidental Take Report

Reference: 1) NOAA's National Marine Fisheries Service (NMFS) Biological Opinion for Sea Turtles:
September 18, 2006

2) Correspondence from NOAA's NMFS Rodney R. McInnis to Robert Heckler at San
Onofre re: NFMS-SONGS Sea Turtle Protocol, and NMFS Sea Turtle Protocol; March 28,
2012.

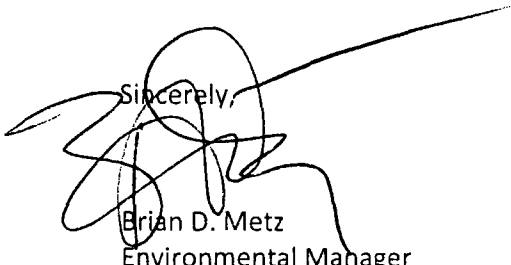

Dear Ms. Wilkin:

In accordance with the references above, the San Onofre Nuclear Generating Station (SONGS) is submitting this annual report to document that there were no incidental takes of sea turtles during 2014.

All shifty inspections of the Cooling Water System (CWS) are logged within our electronic Shift Operations Management System (eSOMS) and a review of the logs showed no sea turtles. Routine monthly offshore surveys conducted in the vicinity of the Units 2 and 3 intakes did not note any sea turtles. Both plants currently have velocity caps which significantly minimize the potential for the entrainment of sea turtles into the Units 2 and 3 circulating water intakes.

If you have any questions, please contact me at (949) 368-7311

Sincerely,

Brian D. Metz
Environmental Manager
San Onofre Nuclear Generating Station
