Dr. Goodwin,

Thank you for bringing this to our attention. We've considered your request and the deadline of your response has been extended to within 30 days starting from today (January 30, 2015).

Kevin Hsueh, Chief
Research and Test Reactors Oversight Branch
NRC/NRR/DPR

Subject: Letter

Good afternoon.

I just received the letter from the NRC this afternoon (a few minutes ago). i am assuming it was delayed due to the blizzard. The letter states that we have 30 days from the dates of the letter to respond and I will do my best to meet that however since the letter took 8 days to arrive at our facility, I request that the 30 day deadline begin today. Since it is safeguards information we have not been able to read the letter until this date, due to the fact that we cannot access it in ADAMS.

Thank you,

Cameron
