SUMMARY

This call was made regarding FLIR's 2014 report. (ML15036A148) Mr. Preston indicated that the radioactive material in the first table in his report was distributed as check sources. (10 CFR 32.18 -> 30.18) The second table was for radioactive material that was distributed as internal calibration sources. (32.14->30.15(a)(9)) Mr. Preston stated that only Cs-137 was distributed in the detectors (identiFINDER and radHUNTER) listed in the second table, i.e., no Mn-56.
