Hi Valincia,

I am working on the review of the Byron Station license renewal application for the U.S. Nuclear Regulatory Commission (NRC). This morning I received a copy of the DOI's February 17 comment letter on the NRC's supplemental environmental impact statement (SEIS) for Byron (attached for your reference). Do you know if this letter inclusive of the FWS's review of the document as well? In past projects, I have found that sometimes the DOI and FWS coordinate their reviews and send one letter, but since the DOI's letter is very brief, I wanted to check before making this assumption. Thanks!
