SUBJECT: MCCALLUM TESTING LLC, LICENSE AMENDMENT, CONTROL NO. 585569

Dear Ms. Ebbert, P.G.:

This refers to your license amendment request. Enclosed with this letter is the amended license.

By letter dated December 16, 2014, McCallum Testing Laboratories, Inc. notified the U.S. Nuclear Regulatory Commission (NRC) that it was transferring control of licensed operations to McCallum Testing LLC. The letter requested an amendment to the licensee name and for direct change of control of NRC Materials License No. 45-15325-01. A letter dated January 7, 2015, was sent with additional information. Based on the information the NRC staff understands that as a result of the direct change of control, the license will be transferred to McCallum Testing LLC dba McCallum Testing Laboratories. The NRC staff further understands that this transfer will not result in any change to the licensee's licensed material, persons using the licensed material, location of the use of licensed material, or persons responsible for the licensee's radiation safety program. It will result in the licensee's name to be changed to McCallum Testing LLC dba McCallum Testing Laboratories.

Based on the above understandings, and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's safety review of the request, the NRC consents to the proposed transfer and has issued this license amendment reflecting that change. Please note that any future changes in the licensee name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license and NRC consent or approval must be received prior to implementation of the proposed change.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically

excluded under 10 CFR 51.22(c)(14).

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,
