Houston, TX 77042

SUBJECT: VOID LETTER CONCERNING NEW LICENSE APPLICATION
CONTROL NUMBER 585365

The Nuclear Regulatory Commission (NRC) has received your request for a new license application in letter dated November 20, 2015. A review of your new license application conducted by this office identified the need to obtain additional information from your company. A telephone conference call was held on February 18, 2015, with the NRC and your consultant representatives, Ray Dickes and Tom Wood of Dickes and Wood Consulting, to explain the additional information needed by the NRC.

Since your response will take time to develop, your new license application is being voided without prejudice. You can submit your response letter to: US NRC Region IV, ATTN: DNMS Licensing Assistant, 1600 East Lamar Boulevard, Arlington, TX 76011-4511, and the NRC will reactivate your new license application request and will complete the review process.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink that reads "Latischa Hanson".

Latischa Hanson, Health Physicist
Nuclear Materials Safety Branch B
