KING OF PRUSSIA, PA 19406-2713

February 24, 2015

Docket No. 03036879
Control No. 586041

License No. 45-31022-01

W. Lloyd Ward, P.E.
Branch Manager
ECS Mid-Atlantic, LLC
108 Ingram Road, Suite 1
Williamsburg, VA 23188

SUBJECT: ECS MID-ATLANTIC, LLC, LICENSE RENEWAL, CONTROL NO. 586041

Dear Mr. Ward:

This refers to your application dated February 2, 2015, for renewal of your NRC license. Enclosed with this letter is the renewed license. **The renewed license is written in accordance with current NRC policy and includes revisions of Conditions/Items. Additionally, in accordance with my telephone conversation of February 23, 2015, with John Hicks of your staff, we have revised the maximum possession limits specified in Item 8. of the license.** Please be reminded that NRC policy requires that all correspondence related to a license be signed by a member of the licensee's senior management, and not the Radiation Safety Officer. Your adherence to this policy in your future correspondence with us will assist us in processing the correspondence in a timely manner.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

The NRC expects licensees to conduct their programs with meticulous attention to detail and high standards of safety and compliance. Serious consequences to employees and the public can result from failure to comply with NRC requirements, therefore you must conduct your program according to NRC regulations, the conditions of your NRC license, and the representations made in your application. In particular, please note that you are required to:

1. Notify the NRC in writing of any change in your mailing address;
2. Notify the NRC promptly, in writing, when you decide to terminate all licensed activities;
3. Notify the NRC prior to changing the name or ownership of your organization;
4. Request and receive an amendment to your license prior to acquiring any licensed material in excess of the maximum possession limit specified on the license, or changing the areas of use/storage specified on the license;

NRC will continue to periodically inspect your licensed activities to verify compliance with NRC requirements. Failure to conduct your program safely and in accordance with NRC regulations,

W. Ward

2

license conditions, and the representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, imposition of a civil penalty, or an order suspending, modifying or revoking your license.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,

Original signed by Sattar Lodhi
