Testing Technologies, Inc.  
License No. 45-25007-01

The letter dated February 10, 2015 requests amendment of the license for 4 new source changer models. However, the letter appears to be from the RSO, and the signature appears to be a script font, rather than an actual signature.

Please submit a letter signed by a management representative, rather than the RSO, that verifies that management is aware of, and in agreement with, the amendment request. Please make sure the letter contains an actual signature.

The signed letter from management may be submitted by regular mail, or it may be faxed to 610-337-5269; or a pdf copy of the signed letter may be submitted by email. Please contact me if you have any additional questions.

Thank you,  
Betsy
