**SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE**

Dear Dr. Roukoz:

In the "Certificate of Disposition of Materials" dated January 23, 2015, the U.S. Nuclear Regulatory Commission was contacted and it was requested that the NRC radioactive material license 24-32184-01 be terminated. In addition, current with the termination, the location of use at 1390 Hwy 61, Festus, Missouri was to be added to Mercy Hospital Jefferson NRC License 24-18315-01, to prevent an interruption in patient care. The NRC staff has reviewed the information submitted and based upon its review has concluded that Metro Heart Group of St. Louis, Inc. License 24-32184-01 may be terminated. Accordingly, the location at 1390 Hwy 61, Festus, Missouri, has been added to Mercy Hospital Jefferson NRC License 24-18315-01, so there will be no interruption in patient care.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
