and Waste Management Division
Colorado Department of Public Health
and Environment
HMWMD-RAD-B2
4300 Cherry Street Drive South
Denver, Colorado 80246-1530

Dear Ms. Opila:

We have reviewed the proposed revisions to the Colorado Rules and Regulations Pertaining to Radiation Control, Part 22, Physical Protection of Category 1 and Category 2 Quantities of Radioactive Material, received by our office on March 17, 2015. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of the two amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with James Jarvis on April 7, 2015.

As a result of our review, we have four comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. In addition, as noted in your letter, we acknowledge that there are errors in some of the references made in 10 CFR Part 37; these issues have been forwarded to the Part 37 working group for further action. Under our current procedure, a finding that the Colorado regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Colorado regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Material Safety, State, Tribal, and Rulemaking Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other Colorado regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS Web site: <http://nrc-stp.ornl.gov/rulemaking.html>.

COMPATIBILITY COMMENTS ON COLORADO PROPOSED REGULATIONS

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	N/A	30.13	2013-1	B	<p>Carriers</p> <p>Colorado has omitted equivalent requirements to 10 CFR 30.13 exempting carriers from the regulations in Parts 30 through 37 and 39, and the requirements for a license to the extent they transport or store byproduct material in the regular course of carriage or storage.</p> <p>Colorado needs to adopt equivalent requirements exempting carriers from the regulations in Parts 30 through 37 and 39, and the requirements for a license to the extent they transport or store byproduct material in the regular course of carriage or storage, in order to meet the Compatibility Category B designation assigned to 10 CFR 30.13.</p>
2	22.9.7.A	37.23(g)	2013-1	B	<p>Access authorization program requirements</p> <p>Colorado modified the language in this section for “clarity”; however in doing so, Colorado changed the meaning of the regulation, i.e., the regulation was changed to state “provide each individual . . . with the right to complete and correct information and the right to explain information”. In NRC’s regulations, the onus is on the individual to “complete , correct , and explain information”. Colorado’s version shifts the responsibility to the Colorado Radiation Program to provide “complete and correct information”, which the individual then has the “right to explain”. This significantly changes the intent of the regulation.</p>

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
					Colorado needs to change this regulation as noted above to be essentially identical to those of the NRC for transboundary issues, in order to meet the Compatibility Category B designation assigned to 10 CFR 37.23(g).
3	22.25.3	37.73(c)	2013-1	B	<p>Applicability of physical protection of category 1 and category 2 quantities of radioactive material during transit</p> <p>Colorado's regulation states, "The shipping licensee shall be responsible for meeting the requirements of this Part unless the receiving licensee has agreed in writing to arrange for the in-transit physical protection required under this Part." As written, this can be misconstrued to mean that by meeting the written agreement option to in-transit physical protection, compliance with the Part (corresponding to all of Colorado's Part 22) would no longer be necessary.</p> <p>Colorado needs to add appropriate language [e.g., subpart, subsection, specific provision(s), etc.] where applicable in order to provide a distinction between the entire Part and the specific provisions of the Part for which the shipping and receiving licensee would be responsible.</p> <p>Colorado needs to address the above issue in 22.25.3 in order to meet the Compatibility Category B designation assigned to 10 CFR 37.73</p>
4	17.11.3	71.97(b)	2013-1	B	<p>Advance notification of shipment of irradiated reactor fuel and nuclear waste</p> <p>Colorado omits this provision from its regulations in 17.11.3.</p>

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
					Colorado needs to add the above language to 17.11.3 in order to meet the Compatibility Category B designation assigned to 10 CFR 71.97(b).
