Mail Control No.: 586127
Caribe MRI/Ponce MRI and Nuclear Center

Mr. Rodriguez:

We have received your NRC Form 314, dated February 23, 2015, requesting termination of the NRC license listed above. Please note, to complete the license termination we need a final radiation survey of the facility **or** a letter indicating when the last time radiopharmaceuticals were used at the facility and what radionuclides were involved. We have the documentation that the sealed sources associated with this license have been transferred to Lantheus Medical Imaging.

Please note that you may reply to this letter by return e-mail. However, it must be a scanned document that contains a management signature. Alternatively, you may reply by mail or facsimile (610-337-5269). If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application. Please include the mail control number for this action, 586127, in your response, so that our administrative personnel can ensure it is properly filed with this termination request. If you choose to mail your response the address is:
