SUBJECT  
Clarification of corporate structure and confirm public documents

SUMMARY

I was contacted by Dan Spanger (representative for Verso Paper) from Holcomb law firm and discussed the structure of the organization after the indirect change of control. Did Escanaba Paper now directly attached to Verso Paper or was NewPage directly attached to Verso Paper and Escanaba still attached to New Page and New Page directly attached to Verso Paper? Also, were any of the indirect change of ownership change papers "non-public"?

Spanger left a voice mail clarifying that the organizational structure of the could be found in the initial indirect change of control documents dated January 31, 2014. The organization structure shows Verso Paper as the parent, with a number of NewPage companies between Escanaba and Verso Corporation (name change).

Spanger also stated that the information in the January 13, 2015, was "public".

Spanger stated he confirmed the above with Peter Kesser, Senior Vice President of Verso Corporation.
