April 6, 2015

Mr. Glenn Ford
Vice President for Finance and Administration
Oregon State University
640 Kerr Administration
Corvallis, OR 97331-2156

SUBJECT: AMENDMENT 2 TO SPECIAL NUCLEAR MATERIAL LICENSE SNM-2013
(TECHNICAL ASSIGNMENT CONTROL NUMBER L33358)

Dear Mr. Ford:

The U.S. Nuclear Regulatory Commission (NRC) received a license amendment request from Oregon State University (OSU) on December 29, 2014, to reflect recent changes in key personnel and administrative structure within OSU. Specifically, OSU has appointed a new Radiation Safety Officer added a new position of Chief Officer for Risk Management, assigned an interim Vice President for Research, and appointed a new Vice President for Finance and Administration. A Safety Evaluation Report is enclosed addressing the details of the review.

Public and non-public versions of Amendment 2 to OSU Special Nuclear Material (SNM)-2013 license are included in Enclosures 2 and 3 of this letter, respectively. License condition No. 9 of SNM - 2013 has been modified to include your December 29, 2014 letter, in which you provide a description of the administrative changes and a revised organization chart for OSU. In addition, we have corrected the dates for OSU original submittal of license application and revised license application to October 22, 2009, and October 31, 2009, as our records indicate. This correction does not represent additional tie-downs or commitments for OSU. All other conditions of the license remain unchanged. License condition No. 9 has been revised as follows:

9. Authorized use: For use in accordance with the statements, representations, and conditions specified in the licensee's application dated October 22, 2009, October 31, 2009, supplements dated February 11, 2010 and June 16, 2010, and letter dated December 29, 2014.

Document transmitted contains Security - Related Information. When separated from Enclosure 3, this document is decontrolled.
