Wilmington, NC 28401-0780

SUBJECT: REQUEST FOR LIST OF GE-HITACHI AND GLOBAL NUCLEAR FUEL –
AMERICAS PLANNED TOPICAL REPORT SUBMITTALS FOR FY2015,
FY2016, AND FY2017

Dear Mr. Head:

On May 2, 2012, the U.S. Nuclear Regulatory Commission (NRC) conducted a public meeting to discuss prioritizing the review of topical reports (TRs). At that meeting, the process for determining the priority of a TR review was discussed in detail. The need for this prioritization is due to the limited resources the NRC has to assign to the review of a TR.

As presented at that meeting, several factors were included in the matrix that was applied to each TR to determine its review priority. The details of these factors are documented in the meeting minutes found in the Agencywide Documents Access and Management System at Accession No. ML12135A525.

As was committed to at the May 2, 2012, meeting, the NRC staff is available to meet with GE-Hitachi and discuss the results of the prioritization process.

The NRC staff is seeking up-to-date information on future GE-Hitachi and Global Nuclear Fuel - Americas TR submittals. This additional information will help the NRC staff in budget development and resource implementation.

In order to help the NRC staff plan for future TR reviews, it is requested that you provide a list of TRs you plan to submit in FY2015, FY2016, and FY2017 (if available). The following information for each TR should be provided:

- if it will apply to existing plants, new reactors, or both,
- the estimated number of licensed facilities planning to use the approved TR,
- any specific operating plant or new reactor type indicated intent to include the safety evaluation in licensing actions once the TR is approved by the staff, and
- if a fee-exemption request will be submitted under Section 170.11 of Title 10 of the *Code of Federal Regulations*.

Please provide this information within 30 days of receipt of this letter. For your convenience a table format is provided in the enclosure to this letter.

When submitting this information, please provide us with the resources it took to prepare the information. This will give the NRC needed information to support future Paperwork Reduction Act requirements.

Paperwork Reduction Act Statement

This letter contains information collection requirements that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0216.

The burden to the public for these (voluntary) information collections is estimated to average 10 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. Send comments regarding this burden estimate or any other aspect of these information collections, including suggestions for reducing the burden, to the Information Services Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail to INFOCOLLECTS.RESOURCE@NRC.GOV; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0216), Office of Management and Budget, Washington, DC 20503.

Public Protection Notification

The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid OMB control number.

If you have any questions, please contact Joseph Golla of my staff at (301) 415-1002.

Sincerely,

/RA/

Anthony J. Mendiola, Chief
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation
