US ARMY and the NRC an...

This a photo of me and a portion my 3rd us army du clean up team. we have all paid the horrendus price for our doing our assigned duties with du muntions- contamination. our medical care has been shoddy at best with team widows Mrs. T. Orrell widow of LTC Bill Orrell who moved the junk on his army trucks for us - still fighting for benefits. Army leaders abandoned us per the march 1091 lo alamos memo- order while the march 1991 defense nuclear agency memo warned us about serious health hazards.

Hello,

I am the NRC Project Manager for the license that the NRC issued to the U.S. Army for depleted uranium from Davy Crocket spotting rounds. I wanted to let you know that the NRC staff will hold a meeting on March 24, 2015 from 9:00 a.m. to 4:00 p.m. (Eastern Time) about this license. The Army plans on submitting its application to add the remaining sites to be licensed. The Army intends to address all of the sties, to include the Army's Hawaiian installations, in its application.

The meeting announcement information can be found at: <http://meetings.nrc.gov/pmns/mtg>. The public is invited to observe this meeting and will have one or more opportunities to communicate with the NRC after the business portion of the meeting but before the meeting is adjourned. If you are interested in calling in to this meeting via a toll-free teleconference, please contact me and I will provide you with the needed information.

Thank you

*Amy*
