Aloha Amy,

Although I will most likely not be able to observe or participate in the March 24th meeting discussion, it would have been nice to have received the toll-free call-in number just in case my situation changes. This might apply to others as well.

Since the information is public, would it not have been easier to provide the toll-free call-in number within the body of one of your e-mail updates rather than responding to those who requested the toll-free number individually? Doing so should save you some time considering all that you must do to prepare for the upcoming meeting.

I'm glad that you mentioned that you would be responding to those who had additional questions because I look forward to receiving responses to my comments and questions. By the way, could you please request the Army to explain where the unaccounted for Davy Crockett spotting rounds are located at the Pohakuloa Training Area. The Army reported locating a few fragments if I recall correctly, but if my recollection serves me right there were somewhere closer to 2,000 spotting rounds imported to Pohakuloa by the Army. Pardon me if this number of spotting rounds is incorrect. My memory is a little foggy since this process has stretched on for quite some time now...

Aloha,

Isaac "Paka" Harp

Hello,

I am the NRC Project Manager for the license that the NRC issued to the U.S. Army for depleted uranium from Davy Crocket spotting rounds. I wanted to let you know that the NRC staff will hold a meeting on March 24, 2015 from 9:00 a.m. to 4:00 p.m. (Eastern Time) about this license.
