Subject: Request for Extension of Time to File Public Comments, Docket ID NRC-2015-0004

Dear Ms. Bladey:

New England Coalition on Nuclear Pollution ("NEC") requests that the Nuclear Regulatory Commission extend, by 10 days, the public comment period for the above referenced proceeding.

The Public Meeting Schedule at NRC.gov has an announcement dated 2/2/2015 (ML15033A155) for the 02/19/2015 public meeting in Brattleboro, Vermont, re: Entergy Vermont Yankee's Post-Shutdown Decommissioning Activities Report. In that announcement it says a transcript "...will be made available by the NRC in a few weeks after the meeting." There were also numerous mentions of the transcript by NRC staff during the meeting. As a result, it is reasonable that members of the public expected access to the transcript a few weeks after the meeting.

Unfortunately the transcript was added to ADAMS on 3/18/2015 (ML15070A234).

Document Title	Accession Number	Date Added	Size
<input checked="" type="checkbox"/> Transcript of February 19, 2015 Vermont Yankee Post-Shutdown Decommissioning Activities Report Public Meeting. Pages 1-200.	ML15070A234	03/18/2015 10:35 AM EDT	6.35 Mb

Source: ADAMS properties for ML15070A234

NEC and the public would benefit from additional time in which to review the information provided in the transcript and to prepare well-developed and accurate comments the PSDAR deserves.

Thank you very much for your consideration of this request.

Respectfully submitted,

Clay Turnbull  
Trustee
