Hello to everyone involved in the Chaisson case as it's referenced, I James Chaisson is requesting a settlement to this case I am offering a 1 year suspension and a 40 hr radiographer radiation refresher course before returning to work. I feel that's at the least a starting point to a settlement between both parties. I have health issues and finance issues and I don't feel I have the amount of time or resources to continue to fight with this situation even though it is and always has been my means to raise my family and has been since 1984 without any other infractions on my name in all of those years. I do not have internet service at my home because it is not a necessity to have and at this time I am unable to drive due to my injuries and medication. I already feel I will not be heard or allowed to speak about the original so called violation and with out that part of the case and the fact my constitutional rights were violated from the start of the original so called violation & not be able to hire someone to help me prove my case due to the fact I don't have a chance if that fact doesn't mean anything to the judges then without at least an attorney then I don't have a chance. I had to wait till I could get a ride to a location to get on internet and I really don't know how long I will find my phone as a necessity either because necessity to myself is a roof over my children's head and our health and keeping food on the table so I will try my best to check my emails again Friday. I am in no way admitting to being wrong I just feel my health and rehabilitation is my #1 PRIORITY! Thank all involved in this case James Chaisson.
