

March 30, 2015

Mr. Steven Toelle
Director, Regulatory Affairs
Centrus Energy Corp.
6903 Rockledge Drive
Bethesda, MD 20817-1818

SUBJECT: SUPPLEMENTAL INFORMATION RELATED TO THE CYBER SECURITY
PLANS FOR THE AMERICAN CENTRIFUGE OPERATING, LLC - TECHNICAL
ASSIGNMENT CONTROL NUMBERS L34289 AND L34297

Dear Mr. Toelle:

I am responding to your letter dated February 25, 2015 (ACO 15-0008), in which you submitted the system inventory for the following cyber security plans to the U.S. Nuclear Regulatory Commission (NRC):

- SP-3605-0011, *American Centrifuge Classified Administrative Network Information System Security Plan* (ISSP)
- SP-3605-0013, *American Centrifuge Distributed Control System Information System Security Plan* (ISSP)

Your letter was provided in response to the NRC's letter dated January 28, 2015 [Agencywide Documents Access and Management Systems (ADAMS) Accession Number ML15027A140], authorizing American Centrifuge Operating, LLC (ACO) to operate the networks described in the above referenced ISSPs. In your letter, you provided ACO's response to the NRC's stipulation in its January 28, 2015, letter, which required ACO to provide within 30 days the system inventory of these networks, including the name and version of the operating systems.

The NRC staff, in coordination with subject matter experts from the U.S. Department of Energy, conducted a review of your submittal and, based on the review of the information provided, the NRC staff has determined that ACO's response is acceptable and the stipulation is resolved. The NRC staff has no additional comments regarding this matter. Efforts under Technical Assignment Control numbers L34289 and L34297 are now closed.

In accordance with Title 10 of the *Code of Federal Regulations* 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's Agencywide Documents Access and Management Systems (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

S. Toelle
