Shirley

Sorry for the confusion on the emails. Please in the future use this email (Rolf.M@stepanalyticsusa.com) since the EUSA email address and server is going to be ending in some future time. Right now it is sounding like it is going to be ported to the home office after the end of April and I am not sure that I will be able to read anything that comes to it after the next few weeks.

The other option is my personal Gmail which is rolf.meinholtz@gmail.com

At this time none of the information that is in the recent submission is of a proprietary nature, none of the drawings that are in it are proprietary.

Also as I mentioned in the phone call earlier today we are looking at office spaces this week and may have the location for the office far sooner that originally planned. If that becomes the case I will send a update once we get it finalized.

If there are any questions or problems please feel free to call or email me at your convenience.
