SUBJECT: NRC ROUTINE INSPECTION REPORT NO. 03011772/2015001(DNMS) AND
NOTICE OF VIOLATION – JANX INTEGRITY GROUP

Dear Mr. Reeve:

On January 27-29, 2015, inspectors from the U.S. Nuclear Regulatory Commission (NRC) conducted a routine inspection at your facilities in Parma and Mt. Pleasant, Michigan, and at temporary job sites in Midland and Sanford, Michigan. The purpose of the inspection was to review activities performed under your NRC license to ensure that activities were being performed in accordance with NRC requirements. Mr. Ryan Craffey and Mr. Ed Harvey of my staff conducted a preliminary onsite exit meeting with you on January 29, 2015, and a final telephonic exit meeting with you on March 25, 2015, to discuss the inspection findings.

During this inspection, the NRC staff examined activities conducted under your license related to public health and safety. Additionally, the staff examined your compliance with the Commission's rules and regulations as well as the conditions of your license. Within these areas, the inspection consisted of selected examination of procedures and representative records, observations of activities, and interviews with personnel.

Based on the results of this inspection, the NRC has determined that Severity Level IV violations of NRC requirements occurred. The violations were evaluated in accordance with the NRC Enforcement Policy. The current Enforcement Policy is included on the NRC's website at <http://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>. These violations are of a security-related nature. Details of the violations are available in the enclosed non-public Inspection Record (Enclosure 2). The violations are cited in the enclosed Notice of Violation (Notice) (Enclosure 1). The NRC is citing the violations in the Notice because the inspectors identified them.

The NRC has concluded that information regarding the reason for the violations, the corrective actions taken and planned to correct the violations and prevent recurrence, and the date when full compliance will be achieved is already adequately addressed on the docket in this letter and its attachments. Therefore, you are not required to respond to this letter unless the description

Enclosures 1 and 2 contain Sensitive
