Hi Roger,

As we discussed in our phone call, I had an opportunity to talk it over this morning at our staff meeting.

1) We agree to carve out of our request the disclosure of all drafts of the two final referenced documents.

2) With respect to the scope of the FOIA 2015-00201 request for NRC communications, we are requesting the NRC email that regards the two reference documents coming to agency staff and exchanged between agency staff as well as to and from agency chair's for the working groups and sub working groups.

We recognize that this may result in more partial responses as well as repetition of documents which is outweighed by the gain of a thorough public disclosure of the NRC decision making process and the agency policy on transparency of information potentially affecting public health and safety.

Thank you,  
Paul
