## II. Background.

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Requests to Non-Agreement States for Information." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on January 8, 2015 (80 FR 1051).

1. *The title of the information collection:* Requests to Non-Agreement States for Information

2. *OMB approval number:* 3150-0200

3. *Type of submission:* Revision

4. *The form number if applicable:* Not applicable

5. *How often the collection is required or requested:* On occasion

6. *Who will be required or asked to respond:* The 15 Non-Agreement States (13 States, the District of Columbia, and the Commonwealth of Puerto Rico that have not signed 274(b) Agreements with the NRC)

7. *The estimated number of annual responses:* 120

8. *The estimated number of annual respondents:* 15

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 1,089

10. *Abstract:* The NRC is seeking to revise this information collection to be a plan for a generic collection of information. The need and practicality of the collection can be evaluated, but the details of the specific individual collections will not be known until a later time. Requests may be made of Non-Agreement States that are similar to those of Agreement States to provide a more complete overview of the national program for regulating radioactive materials. This information would be used in the decision-making of the Commission. With Agreement States and as part of the NRC's cooperative post-agreement program with the States pursuant to section 274(b), information on licensing and inspection practices, and/or incidents, and other technical and statistical information are exchanged. Therefore, information requests sought may take the form of surveys, e.g., telephonic and electronic surveys/polls and facsimiles.

Dated at Rockville, Maryland, this 14<sup>th</sup> day of May 2015.
