

ENCLOSURE 4

APP-FSAR-GLY-720
Westinghouse LAR-30 NRC Pre-Submittal Discussion
(Non-Proprietary)

The purpose of this document is to provide the NRC with Westinghouse's draft input for the License Amendment Request regarding changes to the AP1000 Wall 11, Wall 11.2, and First Bay design (LAR-30) being considered for the Vogtle Unit 3 & 4 and V.C. Summer Unit 2 & 3 plants. This document is being provided ahead of the April 2nd, 2015 technical exchange meeting between the NRC, Westinghouse, Southern Nuclear, and South Carolina Electric and Gas in order to facilitate discussion. This document represents a draft input and has not been finalized by Westinghouse, Southern Nuclear, or South Carolina Electric and Gas.
