Subject: Extension Request - SML #SUC-1593
Date: Friday, March 27, 2015 10:26:59 AM

Ms. Snyder,

We appreciate the NRC's willingness to discuss the Army's application amendment to possess DU as the Army diligently works to complete it. Our discussions revealed to those working on the Army's application amendment, a need to request additional information from the involved installations to complete a sufficient bounding analysis to include in the application amendment. The Army requests an additional 45 days (extending the deadline from April 17, 2015 to June 1, 2015). The extension request includes two weeks to request and receive the necessary information, two weeks to analyze and include the information in the application amendment, and two weeks for review and staffing. Again, the Army appreciates your time and consideration. Thank you.

Bob Cherry
