Washington, DC 20555-0001

Re: Strata Energy Ross In Situ Recovery Project  
Source Materials License SUA-1601, Docket No. 040-09091  
Preoperational License Condition 12.5

To Whom It May Concern:

License Condition 12.5 of SUA-1601 requires the following:

*12.5 Prior to commencement of operations, the licensee shall submit a copy of the solid byproduct material disposal agreement to the NRC.*

On February 27, 2015 Strata Energy executed a Byproduct Disposal Agreement with Pathfinder Mines Corporation. In discussions with NRC staff they indicated that Strata is not required to submit the agreement but must notify NRC when an agreement has been executed and must maintain a copy on file for NRC inspection. Under License Condition 9.9 Strata must maintained the approved agreement on site during any time the facility is in operation and must notify NRC if the agreement expires or is terminated.

Strata requests that NRC staff verify that the provided information meets the requirements contained in License Condition 12.5. Please contact me if you have any questions. You can reach me at (307) 686-4066 or [mgriffin@stratawyo.com](mailto:mgriffin@stratawyo.com).

Sincerely,

Strata Energy, Inc.

  
Michael Griffin  
Vice President of Permitting, Regulatory and Environmental Compliance
