**Cc:** Travis Snowder; Bryce Rich (blrich@myexcel.com)  
**Subject:** RE: Qal-Tek Associates Diagram

Good Afternoon Mr. Albanese: Please note that although Item 6.A. of your license authorizes byproduct material with Atomic Numbers 1-98, you are not considered a type A broadscope licensee but a licensee that authorizes services for other licensees. (See 10 CFR 170.31 fee category 3.N. <http://www.nrc.gov/reading-rm/doc-collections/cfr/part170/part170-0031.html> and 10 CFR 171.16 fee category 3.N. <http://www.nrc.gov/reading-rm/doc-collections/cfr/part171/part171-0016.html>). Therefore, whenever you make changes to your license from what was originally submitted, you must make amendment to your license (especially for changing locations of use and/or storage) using the guidance in NUREG-1556, Vol. 18, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Service Provider Licenses [<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v18/>] instead of NUREG-1556, Vol. 11, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Licenses of Broad Scope [<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v11/>]. Please note that I will be amending your license to move the containment facility operations from the current location in the Annex building to the recently constructed Building 3. In addition, I will also be reviewing your other 2 amendment requests to change Radiation Safety Officers dated February 5, 2015 and various amendments to Items 6, 7, 8, 9, and adding a new license condition dated January 23, 2015. I will either request additional information or amend your license, as appropriate.

Please do not hesitate to contact me if I can be of further assistance.

Respectfully submitted,

*Ms. Jacqueline "Jackie" D. Cook*

Hello Ms. Cook,

Thank you for the reply. The Annex will remain a controlled area.

I don't believe this would be called a license amendment since we are a type A broadscope with a single address representing all the buildings on the diagram.

Please correct me if I'm wrong, Best regards,  
Mike A.

Good Afternoon Michael: Just FYI that you received the void letter because the due date for this action was on January 12<sup>th</sup>; however, I didn't receive the requested diagrams until January 13<sup>th</sup>. But yes the diagrams are still valid and I'm waiting on the licensing assistant to complete the administrative processing of this amendment request and she will give it to me to work.

**Please confirm that the "Annex" building is not being released for unrestricted use.**

I hope I get the action to work on & issue within the next couple of weeks. Please do not hesitate to request a status update if you have not heard from me by then.

Thanking you in advanced for your understanding and assistance in this matter,
