Division of Risk Assessment
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF MARCH 24, 2015 PUBLIC MEETING BETWEEN
THE NRC AND INDUSTRY TO CONTINUE DISCUSSIONS ON
THE DRAFT WHITE PAPER PREPARED BY THE NUCLEAR
ENERGY INSTITUTE TREATMENT OF UNCERTAINTY IN
RISK-INFORMED DECISIONMAKING WORKING GROUP

On March 24, 2015, the U.S. Nuclear Regulatory Commission (NRC) staff held a Category 2 public meeting (teleconference) with the Nuclear Energy Institute (NEI) Treatment of Uncertainty in Risk-Informed Decisionmaking Working Group (WG). The purpose of this meeting was to provide feedback on the revised White Paper prepared by NEI on the Treatment of Uncertainty in Risk-Informed Decisionmaking, Agencywide Documents Access and Management System (ADAMS) Accession Number ML14052A306.

Sunil Weerakkody of the U.S. NRC led the meeting and summarized previous activities between the working groups. He stated that the NRC WG reviewed the revised White Paper and was in alignment with the path forward. He noted that NEI accepted many comments provided by the NRC WG, but some comments were not incorporated in the White Paper and will be shared with the NRC/NEI Risk-Informed Steering Committee (RISC) at the next public meeting. He also noted the NRC WG will draft a memorandum to the NRC RISC documenting the WG's review of the White Paper.

The next steps for the WGs were discussed. The NRC WG listed the upcoming April 1, 2015 RISC and the May 6, 2015 Advisory Committee on Reactor Safeguards (ACRS) public meetings that will include discussion on the WG's activities. The NEI WG requested clarification on their involvement in the upcoming April 1, 2015 RISC public meeting.
