EXAMINATION REPORT 05000445/2015301; 05000446/2015301**

Dear Mr. Flores:

On March 9, 2015, Garry Struble, Simulator and Licensing Examination Manager, notified the U.S. Nuclear Regulatory Commission's (NRC) Region IV's staff via electronic mail that the initial retake examination scheduled at Comanche Peak Nuclear Power Plant for the week of March 23, 2015, was no longer needed. This retake examination included a written examination for two reactor operator applicants.

Mr. Kenneth Peters of your staff formally cancelled the examination by letter to Marc Dapas, Regional Administrator, dated March 12, 2015. Per the request, applications for the two reactor operator applicants have been withdrawn. The examination development process was cancelled after the completion of the draft examination review process at your request; however, the portions of the examination that were reviewed with comments provided to your staff will be included in the NRC's Agencywide Documents Access and Management System (ADAMS).

No findings were identified during this examination.
