General Comment

Re:Docket ID NRC-2015-0004

I wish to express my agreement with comments submitted by the State of Vermont and Windham County legislators concerning Entergy's plan for the decommissioning of Vermont Yankee Nuclear Power Plant. The NRC should not be concerned with Entergy's costs, but rather with the health and safety of citizens who would be jeopardized by an accident or act of sabotage. The job of the commissioners is to protect people and the environment by requiring Entergy to follow protocols to ensure that no dangerous radioactive material is allowed to escape into the environment, and that people living within range are protected with adequate warning systems and evacuation procedures.

Thank you,
Thomas Gajewski
