

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

REGION III
2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

April 6, 2015

LICENSEE: Exelon Generation Company, LLC

FACILITY: Clinton Power Station

SUBJECT: SUMMARY OF THE APRIL 1, 2015, PUBLIC OUTREACH/OPEN HOUSE TO DISCUSS THE NRC 2014 END-OF-CYCLE PLANT PERFORMANCE ASSESSMENT OF CLINTON POWER STATION

On April 1, 2015, from 4:00 p.m. to 7:00 p.m. (CDT), a public outreach/open house was held by representatives of the U.S. Nuclear Regulatory Commission (NRC) to provide the public with information on the 2014 End-of-Cycle plant performance assessment of the Clinton Power Station and with general information on the NRC. The outreach was held as part of the annual Business Expo conducted by the Chamber of Commerce of the town of Clinton, Illinois. The Expo was held at the Clinton High School and involved representatives of approximately 50 local businesses and government agencies staffing booths in the school's gymnasium. Members of the public visited the various booths as dictated by their interests.

Representatives at the NRC booth had available for the public copies of the 2014 End-of-Cycle plant performance assessment of Clinton Power Station, the 2013-2014 Information Digest (NUREG-1350, volume 26), and other information brochures and fact sheets. The NRC representatives also discussed the Clinton Power Station or the NRC, in general, with over 30 members of the public, including a local radio station and a local newspaper. This outreach compared favorably with previous NRC open houses and public meetings to discuss the annual performance assessment of the plant, which had been conducted at the Clinton public library and for which few, if any, members of the public attended.
