RE: Activities at Temporary Job Site Utilizing U.S. NRC Radioactive Material License #06-30556-01 Amendment 07

Temporary Location: Former United Nuclear Corporation Naval Products Manufacturing Facility, New Haven, CT

Cabrera Services Inc. (CABRERA) is providing this written notification of its intent to extend the completion date of CABRERA Material License #06-30556-01 at a temporary job site. The assumed completion date of 03/31/15 has been extended to 04/30/15.

Field activities were completed on 11/07/14 with the exception of the shipment of waste generated during the sampling effort for characterization of 71 Shelton Ave. As part of our agreement with the NRC, samples were shared with NRC/ORAU/CTDEEP and were returned to Cabrera on 03/26/15. Currently the intermodal container is awaiting shipment and Cabrera maintains the security and integrity of the material generated at the UNC site per our agreement with the NRC to do weekly site inspections of the waste container. Cabrera will ship the waste to an appropriate facility for disposal and submit a closure notification to the NRC per condition 18B of Cabrera's radioactive materials license.

If you should have any questions regarding this notification, please contact Michael S. Winters at (352) 610-2150 or Michael S. Plonski at (860) 794-6915.

Sincerely,

Michael S. Winters, CHP
Radiation Safety Officer / Health Physics Manager
