**SUBJECT: E.I. DU PONT DE NEMOURS & CO., INC., CONSENT TO DIRECT TRANSFER
LICENSE, CONTROL NO. 585760**

Dear Ms. Schowe:

By letter dated January 6, 2015 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15022A045), and further information in letters dated February 10 (ADAMS Accession No. ML15054A193) and March 10, 2015 (ADAMS Accession No. ML15071A268), E.I. du Pont de Nemours & Company (DuPont) submitted to the U.S. Nuclear Regulatory Commission (NRC) a change of control by direct transfer of NRC Materials License No. 07-00455-29 and a request to change the name to Chemours Company, F.C., L.L.C.(Chemours). Based on the information you provided, we understand that as a result of a proposed reorganization of DuPont which created Chemours, control of the Edge Moor Plant will directly be transferred to Chemours. We further understand that this transfer will not result in any change to, licensed materials, persons using the license material, location of use of licensed material, or persons responsible for the licensee's radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's review of the request, the NRC consents to the requested transfer of control. Please note that you will need to notify us promptly, in writing, after the transaction has been finalized and include a signed copy of the arrangement confirming completion of the change of control. Because DuPont remains an NRC licensee in Delaware, a new license number will be issued to Chemours. Accordingly, the NRC will issue an administrative amendment to terminate this NRC license and concurrently issue a new NRC license to Chemours Company, F.C., L.L.C. to reflect the transaction. If this planned transaction has not been consummated by July 2, 2015, please notify us in writing. Please contact Dennis Lawyer at 610-337-5366, or by e-mail dennis.lawyer@nrc.gov if you have any questions regarding this letter.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records
