Subject: Section 3.7 audit action item

George,

We researched and it appears to us that Action Item #20 was closed. Let me know if this is sufficient.

Action Item #20: Calc 32-7012130-00 is the EPGB shear key behavior appropriate for shell elements not connected to the excavated volume in SASSI

Path Forward: 3/28/13 update – discussed error in calc, Calc will be corrected and placed in the Reading Room for NRC review.

The calculation was posted to the electronic reading room on May 15, 2013 (see attached email from Dennis Williford to Any Snyder).

Mike Miernicki confirmed on June 5, 2013 that Action #20 was closed because Rev 002 of the calc corrects the error (see attached email from Mike Miernicki to Tom Ryan).
