SUBJECT: GENERIC ISSUE MANAGEMENT CONTROL SYSTEM REPORT  
FOR SECOND QUARTER FY2015

Enclosed for your information is the Generic Issue Management Control System (GIMCS) report for fiscal year (FY) 2015, second quarter. As part of the Generic Issues Program, the Office of Nuclear Regulatory Research (RES) provides this report to division directors in the NRC program offices who are responsible for the active Generic Issues (GIs) as well as to program office counterparts involved in GI Program activities.

The table in Enclosure 1 provides a summary of the status of the GIs. Enclosure 2 is the GIMCS report that provides additional detail on the management and resolution of GIs. This version of the report is to be provided to the Commission, on a quarterly basis, as requested by the Commission under SRM-COMSECY-13-0009. Both enclosures cover the period from December 1, 2014, through February 28, 2015.

Please note that, currently the GI Program is working well. Your continued support in the activities as outlined in Management Directive 6.4, "Generic Issues Program," to resolve the GIs is much appreciated.

Enclosures:  
As stated
