Subject: Termination of License

Discussion: (13:45) I spoke with Mr. Rathbun who wanted information on termination of his license and transfer of control of the license. The company was sold in its entirety on December 31, 2014, and the new owner wanted to know if the NRC license could be transferred to his control. I went over the information requirements in NUREG-1556, Vol. 15 for a transfer and that the new owner would need to commit to all of the regulatory liabilities that may exist. After looking over the document, Mr. Rathbun stated that it would be easier for the license to be terminated and if the new owner required to perform work in NRC jurisdiction, he could get his own license. The new owner has a current NY State license for the use of the gauge. I went over the information that Mr. Rathbun would need to submit in order for the license to be terminated.

Action Required: File in case the licensee does not submit a request to terminate the license.
