General Comment

I am against any new development of nuclear plants in South Florida. With the new technologies being developed by Tesla, GE and others there is no need to increase the dangers associated with radiation (ie. Chernobyl and Fukushima, Japan). Also our proximity to Cuba with their ties to Venezuela and Russia make this a verrrry bad choice. Please think of our Grandchildren and not corporate profits. How ever much the lobbyists offer you, it can't be worth your reputation.

Thanks for reading,

Gary Gross
