Carl Mazzola  
Scientist 6/Program Manager  
Chairman, Environmental Siting  
Consensus Committee  
CB & I Federal Services  
4014 Hammonds Ferry Road  
Evans, GA 30809

Dear Mr. Mazzola:

I would like to nominate Mr. Daniel Mussatti as the authorized U.S. Nuclear Regulatory Commission (NRC) representative on the ANS-2.6 Guidelines for Estimating Present & Forecasting Future Population Distributions Surrounding Power Reactor Sites working group for the Environmental Siting Consensus Committee (ESCC)'s Environmental Siting: General and Monitoring Sub-committee. Mr. Mussatti is the NRC Office of New Reactor's economist for the development of environmental impact statements for new reactor licensing and has twenty-five years of experience in performing demographic assessments.

Mr. Mussatti's ANS Standards Volunteer Form is attached.

In accordance with OMB Circular A-119, A Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities, February 19, 1998, the participation on a committee of an authorized NRC representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing organizations will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence should be addressed to:
