**SUBJECT: GENERAL LICENSE REGISTRATION CERTIFICATE FOR THE USE OF
DEPLETED URANIUM**

Dear Mr. Kraai:

This letter confirm that we have received your letter dated February 25, 2015, regarding the revision of U.S. Nuclear Regulatory Commission (NRC) form 244, "Registration Certificate—Use of Depleted Uranium Under General License," to change the parent organization name from "XRI Testing" to "X-R-I Testing, an Applus RTD Company." In your letter you requested a registration certificate for your locations in Troy, Michigan and Hampton, Virginia. Please note that Virginia is an Agreement State, please contact the Commonwealth of Virginia for your location in Hampton, VA.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 40.25, "General license for use of certain industrial products for devices," persons who receive acquire, possess, or use depleted uranium pursuant to the general license shall file NRC Form 244 within 30 days after the first receipt of acquisition of such depleted uranium. The registrant possessing or using depleted uranium under the general license shall report in writing to the NRC any changes in information furnished by him in the NRC Form 244 within 30 days after the effective date of such change.

The NRC reviewed your Registration Certificate (NRC form 244) and assigned a new registration number **GL-727115**. Your previous registration certificates no. 197 and 203 have been terminated. Please note that no further action is required from you at this time. If you change any information included in the enclosed Registration Certificate, you must notify the NRC in writing within 30 days after the effective date of such change.

You may refer to 10 CFR 40.25 for additional regulatory requirements that you must meet as a general licensee. If you have any questions regarding your registration or your responsibilities as a General Licensee please call me at (301) 415-6004 or visit www.nrc.gov/materials/medical.html.
