

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

May 12, 2015

Mr. Paul D'Abbraccio, Program Manager  
Rhode Island Emergency  
Management Agency  
645 New London Avenue  
Cranston, RI 02920

SUBJECT: STATE LIAISON OFFICER APPOINTMENT

Dear Mr. D'Abbraccio,

I am pleased to learn of your re-appointment as the State Liaison Officer to the U.S. Nuclear Regulatory Commission (NRC) for the State of Rhode Island. I would like to take this opportunity to thank you for your continued service in your position and to provide some general information and reminders about the role of the State Liaison Officer in serving as the principal communications liaison between the NRC and your State.

As you are aware, the State Liaison Officer Program was established in 1976 in response to recommendations from the National Governors Association and other organizations to improve cooperation between the NRC and the States. The NRC relies on the Governor-appointed State Liaison Officers to provide the primary communication channel between the States and the NRC. The State Liaison Officer serves as the key person in the State to keep the Governor informed on issues under the NRC's jurisdiction (specifically matters addressing nuclear regulation, nuclear security, and radiological public health and safety), and provides the NRC with State information on these issues. I have included with this letter an NRC brochure – NUREG/BR-0520 "State Programs at the U.S. Nuclear Regulatory Commission" (Enclosure 1) – that describes some of the NRC's interactions with States, including the State Liaison Officer Program. Enclosure 2, "U.S. Nuclear Regulatory Commission State Liaison Officer Program" describes the program in greater detail, including responsibilities of the State Liaison Officer.

Also enclosed, you will find an NRC procedure – Management Directive 5.2 "Cooperation with States at Commercial Nuclear Power Plants and Other Nuclear Production or Utilization Facilities" (Enclosure 3). This directive contains the NRC's policy on cooperation with States and more detailed information about the State Liaison Officer program and responsibilities. I encourage you to review and become familiar with this document.

### Communications

Ms. Nancy McNamara and Mr. Doug Tifft, our Regional State Liaison Officers in the NRC Region I office, located in King of Prussia, Pennsylvania, will continue to be your main contact for routine communications. You will continue receiving copies of NRC documents and reports on a regular basis to keep you informed of matters that are of interest to your State. In addition to this information, I encourage you to visit the NRC's "Stay Connected" section located on the left side of the main page on the NRC Web site at [www.nrc.gov](http://www.nrc.gov). It contains links to multiple social media tools that can help you stay informed of NRC-related news. Also, the NRC conducts national State Liaison Officer meetings, usually every 2-3 years, and regional meetings as needed to discuss matters of mutual regulatory interest. The next national conference will be held October 27-29, 2015, at the NRC's Headquarters in Rockville, Maryland.

### Handling of Sensitive Information

The State Liaison Officer serves as the primary individual in the State who is responsible for handling sensitive information, including Safeguards Information (SGI), from the NRC. The State Liaison Officer is responsible for ensuring that recipients of such information have a "need-to-know" and for implementing the appropriate measures for storing and protecting the information from unauthorized disclosure in accordance with Title 10 of the *Code of Federal Regulations* Part 73.21. Please find enclosed NRC Regulatory Guide 5.79, "Protection of Safeguards Information" (Enclosure 4). This document describes a method that the NRC considers acceptable for use in establishing an information protection system and implementing the specific requirements for the protection of SGI.

In closing, the NRC's cooperative relationships with States are essential to accomplishing the agency's mission of protecting public health and safety, providing for common defense and security, and protecting the environment. We hope that this relationship will be beneficial for both the State of Rhode Island and the NRC. Your role in continuing this vital relationship is important. We look forward to continuing to work with you.

Please feel free to contact Ms. McNamara at (610) 337-5337 or Mr. Tiff at (610) 337-6918. In the event of their unavailability, please do not hesitate to call me at NRC Headquarters at (301) 415-3340, or Ms. Sarah Lopas of my staff at (301) 415-6360, concerning any questions you may have.

Sincerely,

*/RA/*
