In reply, please refer to LAC-14340

Julio F. Lara, Acting Director
Division of Nuclear Materials Safety
United States Nuclear Regulatory Commission, Region III
2443 Warrenville Road
Suite 210
Lisle, Illinois 60532-4352

Dear Mr. Lara:

SUBJECT: La Crosse Boiling Water Reactor Independent Spent Fuel Storage Installation
NRC License No. DPR-45
Apparent Violations Referenced in NRC Inspection Report 07200024/2014001
(DNMS) and 05000409/2014008 (DNMS),
EA-15-026

I am writing this letter to confirm our previous contact with Mr. Slawinski indicating that Dairyland has elected to submit a written response to the apparent violations described in the NRC Inspection Report 07200024/2014001 (DNMS) and 05000409/2014008 (DNMS) (the "Inspection Report"), and to emphasize Dairyland's ongoing commitment to compliance with both the spirit and letter of NRC regulations. As the new Dairyland President and CEO, I want to confirm my personal and professional commitment to safeguarding public safety, and to ensuring safe and reliable possession and maintenance of all aspects of the ISFSI and our other LACBWR facilities subject to NRC jurisdiction.

My team has provided me the background on the issues described in the Inspection Report, and I have recently reviewed those issues with our board of directors. This is one example of the Dairyland approach for transparency and a strong culture of compliance that starts in our boardroom. We are currently preparing Dairyland's written response to the NRC which will address the substantive issues raised in the Inspection Report and the corrective and other actions taken by Dairyland to respond to the Inspection Report.
