

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

April 23, 2015

MEMORANDUM TO: Robert J. Pascarelli, Chief  
Plant Licensing Branch II-1  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation

FROM: G. Edward Miller, Project Manager  
Plant Licensing Branch II-1  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation 

SUBJECT: SUMMARY OF APRIL 14, 2015, PUBLIC TELECONFERENCE  
REGARDING POTENTIAL SUBMISSION OF A RELIEF  
REQUEST TO REPAIR BURIED NUCLEAR SERVICE WATER  
SYSTEM PIPING

On April 14, 2015, the Nuclear Regulatory Commission (NRC) staff held a public teleconference<sup>1</sup> with the Duke Energy Carolinas (Duke). The purpose of the meeting was to discuss Duke's intent to submit a relief request to support alternative repair methods for the Nuclear Service Water System piping.

During the meeting, Duke indicated that they were planning on submitting a similar relief request as one that was approved for the third 10-year inservice inspection interval, which expired on November 30, 2011. During the discussion, the NRC staff identified that there were alternative code cases that could be proposed for implementing repairs. Specifically, the NRC staff identified The American Society of Mechanical Engineers Code Cases N-786 and N-789.

No regulatory decisions were made and the licensee indicated that they would consider the feedback provided by the NRC staff.
