Subject: ISFF Decommissioning Fund Review

You previously submitted a report for the Idaho Spent Fuel Facility regarding decommissioning funding as did other Part 72 licensees for their respective ISFSIs. Unlike the licenses for other Part 72 ISFSIs, condition 15 of License Number SNM-2512 for the ISFF ISFSI exempts DOE from the requirements of 10 CFR 72.30(c). Consequently, DOE did not need to provide a decommissioning funding report for the ISFF, and no further actions will be taken by the NRC on the decommissioning funding report you previously submitted.

I would like to stress that, of three licenses held by DOE, the exemption mentioned above only applies to License Number SNM-2512. If you have further questions, feel free to contact me either by e-mail or by phone at (301) 415-6877.

Chris Allen
