W.R. McCollum, Jr.
Vice President

October 6, 1998

U. S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Subject: Oconee Nuclear Site
Docket No. 50-269, -270, -287
Technical Specification Bases Changes

Please find attached revisions to the Technical Specification 3.3 Bases which were revised to incorporate changes to the UFSAR sections that were listed as references. Likewise, on September 15, 1998, Technical Specifications 3.5 Bases were revised to incorporate changes to the figures which contain the maximum allowable linear heat rate for the various fuel rods that are utilized at Oconee..

Attachment 1 contains the new Technical Specification Bases pages and Attachment 2 contains marked up versions of the Bases.

Very truly yours,

W. R. McCollum, Jr.
Oconee Site Vice President
