W. R. McCollum, Jr.
Vice President

March 9, 1999

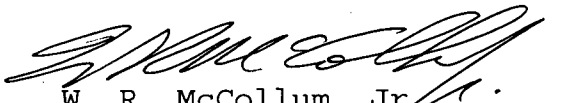

U. S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Subject: Oconee Nuclear Site
Docket No. 50-269, -270, -287
Technical Specification Bases Changes

Please find attached revisions to the current
Technical Specification 3.19 Bases which were revised on
3/2/99, to delete the operability requirements for ESV
Vacuum Tank level instrumentation.

Attachment 1 contains the new Technical Specification Bases
pages and Attachment 2 contains marked up versions of the
Bases.

Very truly yours,

W. R. McCollum, Jr.
Oconee Site Vice President

cc: Mr. L. A. Reyes, Regional Administrator
U. S. Nuclear Regulatory Commission, Region II

Mr. D. E. LaBarge, Project Manager
Offices of Nuclear Reactor Regulation

Mr. M. A. Scott
Senior Resident Inspector
Oconee Nuclear Site
