Selected Licensee Commitments Manual (SLC)

Gentlemen:

Pursuant to 10CFR 50.4 and 50.71, please find attached 7 copies of the latest revisions to the Oconee Selected Licensee Commitments Manual. The SLC Manual is Chapter 16.0 of the Oconee UFSAR. This manual is intended to contain commitments and other station issues that warrant higher control, but are not appropriate for inclusion into the Technical Specifications (TS). Instead of being updated with the annual UFSAR Update, the SLC Manual will be updated as necessary throughout the year.

Very truly yours,

Revision

On April 12, 1999, Station Management approved revisions to SLC 16.9.8. These revisions clarify in the Basis of the SLC a minimum EWST tank level and guidance for EWST operability to maintain adequate inventory to the CCW pumps.

Please revise your SLC manual according to instructions below.

\* Place this cover sheet at the front of your manual  
\*\* We are replacing the entire LOEPs. The original LOEPs were created in Wordperfect format. However, as they were converted to Word, the pages were repaginated. Therefore, they had to be re-issued.
